## NO EXCURSIONS FOR THIS SUMMER

Paducahans Get No Five Dollar Chicago Trip

Test of Two Cent Fare in Illinois May Keep Several Thousand Dollars in Paducah.

ST. LOUIS TRIPS SUSPENDED.

Heart-rending news to a host of Paducahans comes in the announcement made this morning by J. T. Donovan, agent of the Illinois Central railroad, that the annual \$5 excursion to Chicago will not be run this year. Crushed by this news the demolition will be complete with the announcement that every special rate in Illinois has been discontinued until further notice, and that means no more St. Louis excursions.

Every year for many years, the Illinois Central railroad has run an excursion from Paducah in August, usually from the 19th to the 23d., and lasting a week, at the unusually reasonable rate of \$5 for the round trip. Hundreds of Paducah people have enjoyed this excursion, last year over 600 leaving on the dozen coaches for the Windy City. It has been a popular trip because it gave at a reasonable cost, a fine outing in a city, where the attractions are scarcely less in the summer than in the winter.

The St. Louis excursions have been popular, too, and have been as low as \$2 for the round trip, though usually \$3. Not only these two have been discontinued, but absolutely no lower rate than the 2-cent fare that went into effect July 1, will be given to any point or for any purpose. This information was stated emphatically in M. Donovan's letter from Chicago headquarters.

**Try Two Cent Rate.**  
The Illinois 2-cent rate is responsible for the discontinuance of the excursion rates. The railroad wants to try the new rate completely, without any special rates to obscure its workings, and as these excursion rates were based on the old 3-cent rate, they had to be discontinued to obtain the desired result.

The effect of the suspension of excursion rates will be different in different cities. St. Louis and Chicago business organizations will stand aghast at the thought of their financial loss from the operation of the new order. It means that all the money spent by thousands of excursionists every summer in Chicago will be largely curtailed. If 600 persons go to Chicago from Paducah, it can be understood what it would mean to Chicago to have all the excursions from every point in Illinois or that railroad discontinued. St. Louis will be almost as largely affected and a strong protest to the railroad from these cities may result in a change in the order.

Paducah merchants and business interests will be benefited by retaining that money in this city, unless some other outing is planned that will be as attractive as the Chicago-St. Louis excursions. It will keep at home \$15,000 to \$20,000 annually. Other Illinois points not depending as completely on the Illinois Central may get counter-excursions from other roads that will be another inducement to that road to reconsider its order. The new rate law cut the fare to Illinois points one-third, but that would not be low enough to replace the excursion rates.

**Mayor Yeiser Is Ill.**  
Mayor D. A. Yeiser who is suffering from a slight indisposition, remained at home from his office, but will be able to leave the house tomorrow. He has been feeling ill several days.

## CIGAR LIGHTER BURNED HER HAT

Miss Gertrude Scott, daughter of Mr. Will Scott, the hardware man, was saved from burns by the prompt action of Dr. J. H. Settle, pharmacist at McPherson's drug store, Fourth street and Broadway, last evening at 6 o'clock. She suffered the loss of a fine hat, however, Miss Scott was examining pictures with Dr. Settle. She stood near the cigar lighter. Suddenly a hot wave of air blew against Dr. Settle's face, and looking up he saw Miss Scott's hat ablaze. He had caught from the cigar lighter, and the flimsy trimming went like a

Seizing the headgear Dr. Settle tore it from the young woman's head regardless of hatpins, and before she realized she was on fire. Aside from a fright and having her hair pulled, Miss Scott escaped injury. But when Dr. Settle as Dr. Settle approached her, and the only way to avoid a collision was for him to turn into the

## NEARLY \$100,000 CLEARINGS JUMP

This Week Beats Fine Week One Year Ago

Money in Local Banks Being Used, According To Report of Clearing House.

THE LOCAL BUSINESS OUTLOOK

Bank clearings ... \$947,858  
Some week last year ... \$848,276  
Increase ... \$99,582

Reaching nearly a million dollars this week, the bank clearings show a substantial increase over the corresponding week of 1906, which itself was a good week. Payment of the semi-annual dividends both of the banks and other corporations stimulated the circulation and the general circulation of money incident to the close of the first half of the year, have contributed to the fine showing.

Paducah business machinery stopped more generally and completely July Fourth than on any holiday except Christmas, the city has ever known. With only five days to transact business the clearings take an added significance. The retail stores have started their semi-annual clearance sales, which will be felt next, however. Wheat is being harvested and will help conditions to further recover from the spring depression, giving the farmers money to buy needed farm machinery and to make other improvements. With something like normal rural conditions, the local wholesale houses will see a picking up in their sales. Tobacco is still active.

## Road Improvements Will Not Prevent Any Building

County Judge Lightfoot Takes Issue With County Attorney Alben Barkley in Regard to Proposed Bond Issue

**SAYS IT WILL BE A SAVING.**  
"In case of fire, earthquake, or any other calamity which might destroy the county jail or court house, the county could rebuild, even if bonds to the amount of \$100,000 for county road improvements had been issued."  
This is the declaration of County Judge R. T. Lightfoot, and he says the county would have something left over.  
"I see where County Attorney Barkley does not favor issuing bonds specifically for county road improvements," he commented. "Well, I will just explain a few things that have been overlooked. If we issue \$100,000 bonds for road improvements, it will, of course, reach the limit of indebtedness, and we can issue no more bonds for any purpose until the debt is wiped out. Attorney Barkley overlooks the fact that we will have no regular road levy to make if the bond issue is voted and this year it was 22 cents. We could take only 15 cents of the road levy and build a new jail. The fact that good roads are what we need and what farmers demand, must not be overlooked. I find the same persons unfavorable to a new jail or court house unfavorable to gravel county roads. I find them nearly always persons with no property, and taxes to pay. It is not the taxpayers, who do the kicking, for it means less taxes in the long run."  
"Every year we have to build dirt roads. During the winter they wash away, and the next year we have to do the work over. This costs a great deal and in the long run costs more than a dozen gravel roads would. As an illustration of what gravel roads do in the way of economy I will take a gravel road built four years ago from Lone Oak to the Graves county line, eight miles. In four years that road has cost the county but \$20.

## RERATE PADUCAH FOR INSURANCE

Former Electrical Inspector Says City is in Good Condition and Wiring is Done in Approved Fashion

William J. Gilsdorf, formerly electrical inspector for the city, but now state inspector for the board of underwriters, is in Paducah, arriving yesterday afternoon, and will remain for a day or two. He will leave Sunday for the extreme southwestern portion of the state, but will return again in a week or two.  
"Paducah will be rerated when I return," he stated. "I have been winding up a few odds and ends for the Illinois Central road lately and intended getting to Paducah many months ago. Pressing business elsewhere kept me away, but then Paducah is far in advance of many cities in electrical wiring. I know what wiring done here under my supervision in electrical wiring. I know that Inspector McPherson has seen well to all new wiring. Assured that Paducah was being well attended to I did not hasten my arrival."

## JOHN D. IN COURT IN REBATE CASE

Attorney For Standard Objects to Jurisdiction

Series of Formal Motions Are Overruled and Judge Landis Insists on Hearing Case.

LARGE CROWD IN ATTENDANCE

Chicago, July 6.—John D. Rockefeller arrived in federal court today, some time before their judge came. The room was crowded with prominent men, admission being by card. When court convened Attorney Miller for the Standard recited the history of the case and stated that since adjournment of court it had lost jurisdiction. He moved for dismissal of the case. The motion was overruled. Miller then made several formal motions, objecting to summoning of witnesses, etc. The court promptly overruled them. Fred A. Wann, former general freight agent of the Chicago & Alton road, once fined \$200,000 for giving rebates, was the first witness. Judge Landis and District Attorney Sims began questioning him. Takes the Stand.

John D. Rockefeller was called to the stand at 11:15 and stated his name.

He said he was the president of the Standard Oil company of New Jersey. The position is an honorary one, he has rendered no service whatever for eight or ten years.

When asked if he knew the outstanding capital of the company, Attorney Miller objected. It was overruled by Judge Landis.

Rockefeller then answered the outstanding capital is approximately an hundred million dollars.

Landis asked Rockefeller his impression of the Standard's business. "The Standard Oil company has a refining plant to refine oil," replied the witness. "It was its business. It would be impossible for me to make a correct answer to your question."

Rockefeller said he did not know what dividends were \$4, 60, but no doubt some of the company's officials who were present, could tell.

In answer to other questions relative to the Standard's business, Rockefeller replied: "I don't know." In all answers Rockefeller threw the burden of responsibility inside the workings of the Standard Oil company of New Jersey.

Rockefeller was excused and after other witnesses had testified the case was continued until Monday without passing sentence, when defense will be permitted to introduce testimony to show the Standard Oil company of New Jersey does not control or own the Standard Oil company of Indiana.

**What Is To Be Proven.**

It was from witnesses summoned that Landis hopes to obtain the information that will guide him fixing the amount of the fines to be imposed upon the Indiana corporation, recently found guilty of accepting concessions from the Alton railroad on the shipment of oil from Whiting, Ind., to East St. Louis, Ill., and St. Louis Mo. This is what the court wants to know before he decides whether or not to impose the maximum fine of \$29,240,000 against the Standard Oil company of Indiana.

What corporation owns the stock of the defendant company?

What capital has this holding company?

What were the earnings of the holding company in 1903, 1904 and 1905?

Who owns the Union Tank Line company?

What payment did the Alton railroad make for use of the cars of the Union Tank Line during the period covered by the indictment on which the company was convicted?

How many cars of oil were shipped over all lines from Whiting to St. Louis and East St. Louis, Ill.?

Why was rate of ten cents inserted in some of Alton's waybills during time covered by indictment?

No Phone Orders. No Charges

## NO ADVANTAGE TO EITHER COMPANY

Aldermen Put Both Telephones  
on Same Basis

Say the Home Company's Franchise  
Must Be Fair, Else It Would  
Have Declined.

NO LICENSE FOR SMITH BROS.

If the present plan of the city solicitor to offer for sale a franchise to conduct a telephone in Paducah another franchise will have to be brought in, for last night at its first reading the aldermen thought it too liberal and rejected it.

Alderman Stewart opened hostilities by stating some objections to its adoption. In substance he said that it was beneficial to the East Tennessee Telephone company or whoever purchased it and detrimental to the city's interest. It is more than the company asked in the compromise offered and the Home Telephone company might buy the franchise and operate under it. Alderman Stewart thought was not right.

Another reason offered was that no toll connection was offered in the county and the chief tendency was to abolish competition. With the statement: "I am against it," Alderman Stewart took his seat.

City Solicitor explained several points and pointed out that a reasonable franchise must be offered to have any effect in the court.

Alderman Hannan took up the discussion and stated he thought both companies should be put on the same basis.

City Solicitor Campbell added that the company could not count its subscribers in the county in fixing the rate, and ample provision has been left for the control of the corporation by the state; since states are rapidly taking jurisdiction over companies.

Alderman Stewart was perfectly agreeable to the offering for sale of a franchise; only he thought it should be a duplicate of the one under which the Home Telephone company operates. He understood the Home company drew up its franchise and it must be fair for the company. On the roll call: Palmer, Chamblin, Hank and Hubbard, voted "aye;" and Baker, Hannan, Smith and Stewart, "nay."

The motion was declared lost.

No License for Smith Bros.  
Smith Bros. failed to have a license granted them last night, but the matter was referred to the joint license committee for investigation, to see that W. M. Mitchell has no connection with the saloon. Mayor Yelzer, who vigorously opposes the license until an investigation is made, was at the meeting only a short time on account of illness, and asked that it be referred to the license committee.

Senator Wheeler Campbell was present and produced the bill of sale and also a sworn statement by Mitchell to the effect that he had no connection with the saloon. Patrolman Rogers was present and stated that gangs of men and boys congregate at the place and neighbors complained of their conduct. The license committee will investigate and report back to the board.

On the request of Alderman Hubbard the license of George H. Chandler, 204 Kentucky avenue, was held up.

Offices in the city hall during the months of July, August and September will be closed on Saturday afternoons. This request was received from several of the officers and the request was granted unanimously.

President Palmer made the suggestion that the city solicitor investigate and see if an ordinance were in to prevent bells being rung of the streets early in the morning and if not to have the ordinance committee bring in such an ordinance.

Ordinances will be brought in for the improvement of the alleys asked by the coal dealers.

Will Use Concrete.

As to the merits of concrete construction for curbing and gutters City Engineer Washington was called upon for a statement and he said good concrete had been placed here, but he had recommended that the city discontinue laying it. For the curbs on Broadway and Jefferson street, Alderman Hubbard wished stone to be used but the motion lost. First and second passages were given the ordinance.

Permission was granted for the improvement of Jefferson boulevard by the property owners and the traction company. Alderman Stewart was the only member casting a dissenting vote.

Miscellaneous.

The city treasurer's report for June was received and filed. On hand June 1, \$19,139.13; paid out during June, \$17,865.88; received, \$67,098, leaving a balance on hand of \$68,371.74. Accounts amounting to \$14,498.05 were allowed.

Resignations of Dr. J. G. Brooks from the hospital board, and Henry McGee and J. T. Yates from the board of health, were received.

Several changes in ownership of lots in Oak Grove cemetery were ratified by the board. These have been allowed by the council.

E. W. Berry was ordered refunded

money for a license which was not granted.

The aldermen accepted the proposition of property owners on Plunkett's hill to dedicate property for street purposes.

A number of mistakes in making out poll tax bills in which several persons paid twice were referred to the auditor and city assessor to make corrections and the money was ordered refunded.

All the aldermen were present last night and the minutes of the last meeting and of the joint meeting were adopted with two minor changes.

## S.S.S. RIDES THE SYSTEM OF MALARIA

Malaria is an atmospheric poison which we unconsciously breathe into our system. The blood in its constant passage through the lungs absorbs the germs, and they destroy the rich, red corpuscles of this vital fluid and reduce it to such a weak, watery condition that it is unable to properly nourish the system, and disease gets a foothold. Then the symptoms of Malaria, such as pale, sallow complexion, weak vitality, poor appetite, deranged digestion, and perhaps chills and fever show that the trouble is affecting every part of the body. Malaria also affects the liver, producing a chronic state of biliousness, and often a long spell of fever follows when the blood becomes fully contaminated with the poison. Chronic Sores and Ulcers, boils, aches and pains, and skin affections of various kinds often result from this insidious disease if the poison is allowed to accumulate in the blood in sufficient quantities. Malaria must be removed from the system through the circulation, and for this purpose nothing equals S. S. S. This great remedy goes down into the blood and drives out all germs, microbes and poisons, and permanently cures Malaria. S. S. S. not only cleanses the blood of the cause, but furnishes it with the healthful properties it needs, so that instead of a weak, germ-infected stream, spreading disease throughout the system, it becomes a rich, red fluid, nourishing the body and enabling it to resist disease. S. S. S. is also the greatest of all tonics, and builds up and invigorates the entire system while ridding the blood of the germs of Malaria. Persons who are suffering from Malaria will be pleased with the prompt and pleasant results produced by the use of S. S. S., and can take it with confidence because it is an absolutely safe medicine, being free from harmful minerals of any kind. Book on the blood and any medical advice desired sent free to all who write.

dowment therefore is better than common. Cartoonists find many worse things in the celebrities of the day than a tendency to get above the 250-pound mark. The fact is that the lean laugh at the fat with a touch of envy while the fat laugh at things generally from a genial sense of humor and friendly feeling. ## The Week In Society.

### LIFE.

Life—what is it?  
Ah, who knows!  
Just a visit,  
I suppose;  
Joy and sorrow  
For a day,  
Then tomorrow  
We're away.

Youth, and morning;  
Manhood, noon;  
Age—the warning—  
Night comes soon;  
Shines a star to  
Light us; then  
'Tis not far to  
Home again.

—Frank Dempster Sherman in the  
December Atlantic

A gloom was cast over society this week by the death of two of the most popular matrons in the city. In the death of Mrs. Anna Lee Parham and Mrs. Henry Bradley two of the noblest women of the city are lost. Many of the parties and dances for the week were postponed.

Fourth of July came this week, but the older folk were willing to sit by and see the younger Americans keep the day with crackers and noises. Still many had a quiet day in the country, where dinner was served and a good rest taken.

Thoughts that the summer is rapidly departing and with the hottest part on hand society turns to the summer resort and country and a rest from the strenuous life. So next week we may look forward to chiefly informal parties.

### In Honor of Brothers.

Mr. and Mrs. Robert Wathen gave a launch party last night up the Tennessee river in honor of Mr. Wathen's brothers, Mr. C. W. Wathen, of Henderson, and Mr. James Wathen, of Oklahoma. games have been put under the ban  
in the school yard. No more may  
merry, romping children engage in  
the innocent pastimes of "spin the  
plate," "drop the handkerchief," or  
even that classic exercise of "post-  
office." And any little boy caught in  
the act or convicted of feloniously  
taking, stealing and carrying away  
from any little girl, a kiss, with in-  
tention to deprive her thereof without  
her consent, is to be banished sum-  
marily from the institution. Just to  
think that in Philadelphia, where

do not steal kisses, and this rule is

gienic principles. Pennsylvania can  
not afford to endanger the lives and  
health of her future masters of  
"high finance," by permitting them  
to kiss little girls.

## ALLEY IMPROVEMENTS.

Joy over the fact that the general  
council intends to do something for  
us in fixing up the alleys restrains us  
somewhat from criticizing the char-  
acter of improvements proposed;  
but in order that we may be on re-  
cord when time vindicates our opin-  
ion, we wish to protest that perman-  
ent improvements are needed in the  
alleys more than in the streets. Pav-  
ing is not done just "for looks." It  
is done as necessarily on account of  
constant and heavy traffic. On the  
streets this is disseminated over a  
wide surface. In the alleys, where  
quite as much hauling is done, the  
wheels follow each other's tracks and  
wear ruts and gullies. Smoothness  
is not demanded for alleys, but they  
should be permanently paved with  
cobble stones, at least. Down town  
they should be paved with vitrified  
brick. If paved they may be kept  
clean and sanitary, wagons will not  
be stalled in them and cess pools will  
not form in them. Wagons will  
grind ruts in graveled alleys. We  
reserve our privilege of finding fault  
with the board of public works, when  
we think it is palpable, but we can  
see that the general council is or-  
dering the alleys graveled and the  
board of public works is going to be  
blamed for it the next time a gen-  
eral council is compelled to make an  
appropriation for repairing these  
same alleys.Leastwise, the weather is not un-  
seasonable.

## THE SOVEREIGN CITIZENS.

It is a commonplace of political  
history that in a free government,  
not the best men, but the average  
men rule. We observe that this is  
so, and we wonder why it is that  
some of the most intellectual men  
never attain commanding positions,  
while men of mediocre ability, some-  
times control affairs. It is because  
these mediocre men best represent  
the average sentiment of the country  
or community. It was comprehension  
of this law of averages that impelled  
wise men of past generations to  
found free schools; not so much to  
develop extraordinary men to com-  
mand, but to raise the average of the  
whole by elevating the level of the  
lower classes.It is in conformity with this prin-  
ciple that Roosevelt and Bryan are  
the idols of their respective parties.  
It is not intended to say that they  
are not of themselves above the or-  
dinary type in intellect and charac-  
ter, but they personify in a peculiar  
way the average sentiment of the  
country. Their policies and views ex-  
press concretely what is in the public  
mind.These two men may be said in a  
loose sense to lead public opinion;  
and yet, in a larger way, they merely  
reflect it more truly than do their  
contemporaries. Democrats, giving  
full weight to the disqualifying idio-  
syncrasies of Mr. Bryan, search in  
vain for his equal to meet the emer-  
gency. Republicans, with a good half  
dozen men of presidential calibre,  
talk of breaking the third term pre-  
cedent, because no other possesses in  
that rare degree a mind so in accord  
and sympathy with the popular mind  
as to beget such perfect confidence.It falls to the lot of few men in a  
generation to be thoroughly repre-  
sentative. It is a quality of sympathy  
and an inherent gift of recording and  
expressing the idea that is stirring  
in the masses; and that expression,  
right or wrong, will be the domina-  
ting force in our land.Herein we see the direct relation  
between our common school system  
of education and our government.  
There must be more than mere in-  
tellectual elevation in our training of  
citizens. If that dominant popular  
idea is not moral and honest; if our  
schools are not honestly administered,  
by the people, by the school  
board and by the teaching force—  
nay, if the latter are not actuated by  
conscientious, patriotic scruples in  
the training of our coming citizens,  
we may anticipate national decay and  
individual degeneration, so rapid as  
to be apparent while it can not be  
arrested.

out of the bank on Saturday with all  
of the money in the teller's vault  
packed in his suit case.Responding to Mrs. Carter's noti-  
fication that Runyan was in her flat  
detectives went there, and were given  
the key to the flat by the woman.  
On entering they met Runyan,  
who had a revolver in his hand, but  
the officers covered him with guns  
and he surrendered. At the police  
station Runyan said that he lost con-  
siderable money speculating and had  
given Mrs. Carter \$15,000. She said  
he had given her \$5,000 but that she  
had returned the money today, and  
declared that she had betrayed him  
because he failed to give her the  
money that he promised her.It also developed that Runyan gave  
Mrs. Carter a heavy gold bracelet  
and a diamond ring Saturday even-  
ing. These were valued at \$1,000.

he tells the story himself: "I met Mr.  
Reed coming out of the cloak-room,  
and he said to me in that peculiar  
drawl of his: 'Williams, whatever  
makes you such a bitter partisan?'  
'Well Mr. Speaker, that's pretty good  
coming from you, isn't it?' I replied.  
'Never mind me,' he replied. 'But  
why are you such a bitter partisan?'  
'Well, I'll tell you, I said, 'You  
know I never saw a Republican un-  
til I was 35 years old, and I can't get  
used to them, somehow.' He looked  
at me reproachfully and walked away  
without another word."—Kansas City

VICTIMS OF TORNADO IN WIS-  
CONSIN WEDNESDAY.More Bodies Recovered From Debris  
of Storm and Others Are Still  
Missing.St. Paul, July 6.—Twenty-one are  
now known to have been killed in  
the tornado which swept a path one  
hundred miles long and from a mile  
to a few rods in width through cen-  
tral Wisconsin Wednesday night.  
The details of damage are still com-  
ing in very slowly and it is believed  
the death list will be somewhat in-  
creased when all points visited by  
the tornado have been heard from.  
In addition to those killed, a score  
or more of people were injured, some  
so seriously that their recovery is  
doubtful.

## Summer Ailments.

Warm, sultry days like those we  
have had the past few days, bring  
out the first, run-down, spring fever  
conditions in the most healthy. You  
feel drowsy most of the time, indiffer-  
ent to everything, sometimes have  
dull headaches, and are "out of  
sorts" generally.This is a condition incident to the  
first warm weather, but it is merely  
nature's warning to get in fit con-  
dition for the hot season ahead.  
The condition is due to a sluggish  
liver, deranged digestive functions,  
or probably deranged kidneys. It is  
easily and quickly cured, if taken in  
hand in time.The osteopathic treatment is the  
same, rational, most effective cure  
for such ailments. Several treat-  
ments in the dry hot air machine, fol-  
lowed by the osteopathic treatment  
eradicates the condition. It stimu-  
lates every function—the liver, and  
stomach and bowels, the kidneys and  
blood, the heart action, and does it  
without resort to drugs of any sort,  
—just osteopathy.I should like for you to investi-  
gate osteopathy. It is a new science  
in healing but there is nothing oc-  
cult about it—merely scientific  
manipulation to restore a deranged  
function to normal activity, and to  
give tone to all the organs of the  
body.The great success I am having with  
it every day in the treatment of Pa-  
ducah people you know well is the  
testimony I refer to. Call me  
over phone 1497, or call to see me,

afternoon. Dr. G. S. Frouge, Osteo-

Capitol Scandal is Made a VictimHarrisburg, Pa., July 1.—In all the  
muck of crime, malfeasance, fraud,  
traitorous robbery of the common-  
wealth and even dishonesty among  
thieves that has been revealed by the  
turning of the limelight of investiga-  
tion upon the Pennsylvania state  
capitol scandal, there stands forth  
one heroic, magnificent, and, what,  
pathetic figure—George Grey Bar-  
nard, American born, and held by the  
critics of Europe to be the greatest  
sculptor of the age. Surrounded on  
every hand by men whose hands reek  
with the filth of their thieving this  
man stands penitently and stainless.Barnard was persuaded by Archi-  
tect Joseph M. Huston to become  
sculptor for the capitol, and was  
promised a contract for \$700,000. He  
mapped out a monumental scheme  
of statuary for the building. Then  
Huston went to him with a long face  
and told him the contract would have  
to be reduced to \$300,000.

## Does Not Seek Profits.

"This is my native state," respond-  
ed the sculptor; "I do not care for  
the money except for my needs."Then Huston came again with  
apologies and a contract for \$100,000  
and verbal orders for additional work  
to the amount of \$200,000.Barnard signed the contract and  
was required to give a bond which  
cost him \$20,000. To pay for the  
bond he hypothecated his life insur-ance. He went to France and set up his  
studios. For three years he worked.  
He ran out of money, and over and  
over again cabled and wrote to Hus-  
ton.

Huston would not answer. Bar-

nard despaired, called his workmen  
together and discharged them. He  
could not pay them.They would not quit, and worked  
on for fourteen months without pay,  
and plaster models of the statuary  
for the state capitol were completed.Then Huston countermanded the  
contract.Barnard peddled antiques in France  
until he earned enough money to pay  
his workmen. Then he came to  
America and told his story to the  
capitol investigating committee. His  
statues stand in the ruins of France,  
and French critics pronounce them  
the masterpieces of the century.

Asks Aid for His Art.

He begs only for enough money to  
have turned into marble a few of the  
statues that are still in plaster, and  
to bring them to this country and set  
them up in capitol. The state still  
owes him about \$25,000 on the \$100,-  
000 contract, and Governor Stuart is  
trying to arrange some transaction  
whereby the sculptor shall be com-  
pensated as he deserves.

## TEACHERS WOMEN

## INSTEAD OF MEN

Fair Sex Has Supplanted Old Fashioned Pedagogue

Western Spirit Has Outstripped New England in Common School Advancement.

WHY CONDITIONS CHANGED

Washington, D. C., July 5.—"It is a generally recognized fact among teachers nowadays that the schools in the smaller cities of Indiana, Illinois, Iowa, Wisconsin, Minnesota and one or two other of the central western states far outrank schools of similar grade in the eastern states, and even in New England."

This sweeping statement was made by one of the best woman principals in the country, a teacher who has devoted her life to the profession, who has risen through all the grades, and who has a singularly accurate conception of the possibilities as well as the responsibilities of her chosen profession.

"Why is the western teacher in advance of her eastern sister, in the face of the fact that the eastern colleges are generally ranked as higher than those in the west, and the higher education of women is still largely concentrated in eastern schools?"

"For the higher grade of the western public schools, including the primary and secondary grades, and the look to

English cousins, and the result is that the public schools of New England today are undeniably lagging behind the west."

"It is true," said this authority, who speaks from the basis of twenty-five years of service, "that the women have practically driven the men out of the profession of teaching everywhere except in the colleges."

**Why Women Have Supplanted Men.**  
"There are several reasons for this. In the first place, the woman is comparatively new to the business of working for wages. She is still willing to work for less than the man, although frequently she gives longer and better service. The average woman, besides that, is really better fitted for the work of teaching than the man. She has more patience, more tact, and is more apt to treat the pupil as an individual."

"The man treats his class as a whole. He is entirely deficient in the maternal instinct, and he is usually lacking in patience. On the other hand, the man can speak to a boy as no woman can speak. Not only the boys but the girls themselves in a class respect him, and possibly fear him, more than they do the woman teacher."

"For this reason it is a pity that

## People's Cure

## for Stomach Ills

It would be folly to say that a person should always be his own doctor. There are times when one cannot be too quick in consulting a competent and reliable physician, but the fact does remain that there are many ailments that can be cured at home at very little expense. Such remedies can be bought at any first-class drug store for a small sum.

Among the diseases that can be effectively treated at home are such as pertussis to the stomach, liver and bowels, like constipation, dyspepsia, biliousness, flatulency, sour stomach, bloated stomach, sick headache, heartburn, etc. For these troubles there is no better remedy than Dr. Caldwell's Syrup Pepsin. The great herb laxative compound, and among its staunchest friends are the doctors themselves. In such troubles they know better than to offer than the ingredients contained in this remedy, and hence the liberal ones advise their patients to take it. It often happens that at the commencement of an attack some people hesitate to take such a simple remedy, and run to a doctor, but after trying various doctors they finally take Dr. Caldwell's Syrup Pepsin and have their confidence rewarded by a cure. A good case in point is that of Mr. Herrin, of Lawrenceville, Ill., who suffered from what the doctors called "cancer of the stomach." He was given up to die by three leading physicians. He had no appetite, could not digest what little he did eat, had pain in the stomach, and his bowels were constipated. When he himself thought he would die, ultimately he was advised to try Dr. Caldwell's Syrup Pepsin and did so, and now he is entirely cured and has gained 25 pounds. He naturally advises all sufferers from weak stomach to use it. It can be had in 50 cent and \$1 bottles, and results are absolutely guaranteed or money is refunded.

Buy a bottle to-day and watch results.

**FREE TEST** Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by enclosing this coupon. This offer is good for the remedy will do as we claim, and is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Children, yet most effective laxative for children, women and old folks. A guaranteed, permanent home cure. THE PUBLIC VERDICT: No Laxative So Good and Safe as DR. CALDWELL'S SYRUP PEPSIN. This product bears purely genuine No. 12, Washington, D. C.

**PEPSIN SYRUP CO.**  
107 Caldwell Bldg., Monticello, Ill.

we have driven the men out of the work of teaching to such a large extent. We need more men in our schools, and boards of education the country over ought to arrange the salary list on a basis which will secure first-class men as teachers. In a good many cities the salaries are so low that a man who has the intellectual capacity to go into any other profession will not remain as a teacher any longer than he can help it. He cannot be induced to take it up as a profession if he has any chance of succeeding better in any other line of work. The result is that in a good many cases the male teacher is not of the best type, and the clever, energetic woman, therefore, has less trouble in driving him to the wall."

**Young Women in Classrooms.**  
There is a dead line for the woman teacher which she must cross somewhere between the ages of 30 and 35. That is to say, the profession of teaching is largely in the hands of the young women of the country. This statement is not in harmony with the generally accepted view, but it is a fact. Most children in school look upon their teachers as more or less aged. Even in later life we are in the habit of looking back to school days and picturing some teacher as a stern faced virago who was more or less lacking in human feelings. It is a shock sometimes to trace back the history of one's childhood teacher and find that she was likely to have been a slip of a girl, probably under 20, whose years had been magnified only by the point of view of the child.

It will astonish a great many people to learn that more than 80 per cent of the women teachers of the country are under 35 years of age. Almost every other one is actually under 25 years of age, the exact percentage for those between the ages of 16 and 25 being 46.4. In other words, out of 327,635 women teachers in the United States at the time of the last census no less than 152,149 were under the ordinary marriageable age of 25.

While it is true that the school teacher, as a rule, is unmarried, it is evident that she is not at all an old maid, as most people consider her to be. As I have shown by these figures, only one woman school teacher in five has reached the age of 35. After that time the frequency of marriage among the teachers naturally becomes less. It is pretty nearly the dead line for matrimony in the schools. The woman who has reached that age without taking unto herself a husband is apt to remain in the profession until advancing years require her retirement.

**Veracity.**  
Norman Hapgood was discussing veracity. "Truth telling," he said, "is not always wise or praiseworthy. Indeed, it is sometimes the reverse."

"Thus a young man called on a young woman early one spring morning. He had his automobile along. He wanted to give the young woman a morning spin through the country."

"A little girl, the young woman's niece, answered the bell."

"Is your auntie in?" said the young man.

"Yes, sir," said the little girl.

"That's good. Where is she?" he went on.

"She's upstairs," said the little girl, "in her nightie, looking over the railing."—New York Tribune.

## RAT CHASE PROVED DISASTROUS

Youth Falls in Fit While Pursuing Rodent and Narrowly Escapes Being Burned to Death.

Dunkirk, N. Y., July 6.—While lying helpless in a fainting fit at his home on Deer street, Arthur Loeb was nearly burned to death. He recovered consciousness in time to save himself from that fate, but he was terribly burned. His condition is serious, and if he recovers, the probability is he will be permanently crippled.

The young man was awakened at 3 o'clock by a scratching at a window screen in his room. Upon investigation he found a large rat trying to get out. The rat scurried into the shed and Loeb, attired in his nightshirt, trousers and slippers, and carrying a lighted lamp, followed and armed himself with a toy garden rake. He went after the rat, which ran into the kitchen, routed the rat out from under a piece of furniture and struck it several blows.

The excitement brought on an epileptic fit, to which Loeb is subjected, and he fell to the floor. When he recovered his senses a half hour later he found his clothing ablaze, and a door and a section of the floor aflame. He extinguished the fire in his clothing and crawled on his hands and knees to the bathroom. His parents, hearing his cries, found him in the bathtub, rubbing off from his legs what he considered soot, but which, in fact, was charred skin, which came off in large patches. He was burned from the hips down.

After getting the young man to his room and calling a doctor, the father, Charles M. Loeb, went to the kitchen and extinguished the fire there and killed the wounded rat. Lying on the floor were the young man's trousers and slippers, the former burned off at the knees and the latter badly charred.

That the young man was not smothered by smoke as he lay in a faint, thus imperiling the lives of the other members of the household, is considered remarkable. Loeb is about 21 years old.

## The Commonwe lth Paid in Full \$200 POLICY IN FORCE FIVE MONTHS

Any other company would have paid only one-half this amount. The COMMONWEALTH is the only company that pays its Industrial Policies PROMPTLY and IN FULL—no matter when death occurs. The COMMONWEALTH is the "square deal company." Read the following letter:

Louisville, Ky., June 20, 1907.  
COMMONWEALTH LIFE INS. CO.,  
Louisville, Ky.  
Gentlemen: I desire to thank you for paying me so promptly the full sum of \$200.00, being the amount due me, as beneficiary under policy No. 30899, issued by your company on the life of my husband, Frederick William Lammle, who died on June 17th. Although this policy was taken out on February 4th, 1907, less than five months ago, you have paid me in full, whereas other industrial companies under the same circumstances would only have paid me one-half of the amount.  
I certainly appreciate the liberal provisions of the policies that you issue and I want to say also that you have settled with me so promptly, for although my husband carried insurance in three or four other companies, the COMMONWEALTH is the first to settle.  
Very truly yours,  
(Signed): MARY ANNA LAMMLE.

Write a postal card to W. D. Ashley, Superintendent of Industrial Department, Eagle Building, Sixth and Broadway, Paducah, Ky., and an agent will be glad to call and explain fully the many exclusive features of COMMONWEALTH insurance. You do not obligate yourself in any way by talking it over.
